SeaGen Secure® is a dynamic and comprehensive suite of solutions to help patients access Seattle Genetics' therapies

Coverage Support

Benefits Investigation

SeaGen Secure offers benefits investigation assistance to evaluate patient insurance coverage.

Prior Authorization Support

SeaGen Secure can coordinate with healthcare providers, patient insurers, and specialty pharmacies to help navigate the prior authorization process.

Assistance With Appeals

If a healthcare provider determines an appeal is appropriate, SeaGen Secure can review the payer policy to determine additional documentation that may be needed and track the status of the appeal on behalf of the healthcare provider.

Patient Assistance

Commercial Out-of-Pocket Assistance Program

The Program is for eligible patients who have commercial prescription insurance and meet other eligibility criteria. Patients may pay as little as \$5 per prescription fill. Qualifying patients may also be eligible for additional support for capecitabine.

Patient Assistance Program

The Patient Assistance Program provides your oral oncology therapy for up to 1 year at no cost to patients who meet program eligibility requirements.

Quick Start*

The Quick Start Program provides a 15-day supply of product at no cost to patients who experience an insurance-related access delay.

Patient Support

Oncology Nurse Advocate Program

SeaGen Secure offers additional support to patients through the Oncology Nurse Advocate Program. These oncology nurses work with patients and caregivers to support personal needs beyond coverage and financial support.

Additional Assistance Information

SeaGen Secure can refer patients to independent outside organizations for additional logistics support, psychosocial care, and financial needs.

*Quick Start applies to Seattle Genetics' oral therapy only.

Seattle Genetics does not guarantee that enrollment will result in patient assistance, coverage and/or reimbursement. SeaGen Secure and the Oncology Nurse Advocate Program are not intended to provide medical advice or replace medical advice from the patient's healthcare provider.
